City Bus Simulator 2010 New York 1.4.1 Crack.Q: JQuery Cycle - Prevent navigation on last slide I have some trouble with a JQuery Cycle slideshow. The problem is that I have a navigation using nav buttons that stops the slideshow. Basically when the navigation link is pressed the slideShow functions stops and starts again. I need that each click in the navigation is not counting as an "active" click and the navigation starts again. This is my javascript:

```
$('#main_content').cycle({ speed: 800, timeout: 5000, fit: true, transition: 'fade',
    next: '#test_next', prev: '#test_prev', }); $(function(){
    $('#boutique').click(function(event){ event.preventDefault();
    $('#main_content').cycle('stop'); if($('#main_content').cycle('option', 'activeIndex')
    == '1'){ $('#main_content').cycle('next'); } else { $('#main_content').cycle('prev');
```
